

# **Seminário Aberto: Self- and Co-Regulation of Learning – Ongoing Research in Higher Education**

## OPEN SEMINAR

Self- and Co-Regulation of Learning – Ongoing Research in Higher Education

by  
Jonathan Kaplan

Maître de conférences en Sciences de l'éducation  
Institut des Sciences et Pratiques d'Éducation et de  
Formation (ISPEF)  
Université Lumière Lyon 2

26 November 2018, 14h30 - 16h00

Auditório da Biblioteca Central da UTAD (Auditorium of the Central Library)

**Abstract:** Research on the way learners manage and conduct their learning has been carried out since the '80s under the banner of Self-Regulated Learning (SRL). The seminar will begin with a quick overview of SRL, including co-regulation, and a state of the art research example. Research at UTAD as well as a new research project will then be presented followed by an open discussion with participants.

This seminar, organized by the Laboratory of Science and Technology Didactics (LabDCT-CIDTFF), is open to anyone interested and participants are welcome.

Seminário aberto organizado pelo Laboratório de Didática de Ciências e Tecnologia (LabDCT-CIDTFF).

Resumo: Research on the way learners manage and conduct their learning has been carried out since the '80s under the banner

of Self-Regulated Learning (SRL). The seminar will begin with a quick overview of SRL, including co-regulation, and a state of the art research example. Research at UTAD as well as a new research project will then be presented followed by an open discussion with participants.
